# SUBJECT INDEX

## Volume 109 (JANUARY-JUNE 1996)

- Abnormalities, extralobar sequestration presenting as massive hemothorax, 843
- pulmonary, serum immunoglobulins in facsimile machine repair technicians exposed to butyl methacrylate fumes, 1010
- Abscess, proas, 25-year-old man with back pain and an abnormal chest radiograph, 559
- Access to health care, effect of prophylaxis on the outcome of HIV-associated *Pneumocystis carinii* pneumonia, 586, 587
- Accessory pathways, anteroposterior, midseptal, and para-Hisian, electrocardiographic and electrophysiologic characteristics of: implication for radiofrequency catheter ablation, 730
- Accidents, automobile, self-reported use of CPAP and benefits of CPAP therapy: a patient survey, 1470
- ACCP medical personnel services: See College, ACCP medical personnel services
- ACCP-SEEK board review question of the month, chest radiograph showing abnormal mediastinal contour, 1383
- 57-year-old woman with slowly progressing dyspnea on exertion, 827
- 36-year-old comatose woman exhibiting decerebrate posturing, 557
- Acetylcysteine, N-, oxidant-antioxidant balance in granulocytes during ARDS: effect of, 163
- Acid-base imbalance, anion gap in turpentine-induced pleural effusions: correlation with pH and protein level, 504
- effects of neuromuscular paralysis on systemic and splanchnic oxygen utilization in mechanically ventilated patients, 1038
- 36-year-old comatose woman exhibiting decerebrate posturing, 557
- Acid-fast bacilli: See Bacteria
- Acidosis, lactic, associated with propofol, 292
- 36-year-old comatose woman exhibiting decerebrate posturing, 557
- Acquired immunodeficiency syndrome: See also HIV infections, consider anti-CMV therapy, 1130
- diagnostic value of protected BAL in diagnosing pulmonary infections in immunocompromised patients, 601
- outcome of patients requiring mechanical ventilation predicted by recursive partitioning, 1584
- pulmonary botryomycosis in a patient with, 276
- related laryngeal Kaposi's sarcoma, upper airway obstruction in a woman with, 836
- Acrylates, pulmonary abnormalities and serum immunoglobulins in facsimile machine repair technicians exposed to butyl methacrylate fume, 1010
- ACTH: See Adrenocorticotrophic hormone
- Actinomyces odontolyticus* thoracopulmonary infections: two cases in lung and heart-lung transplant recipients and a review of the literature, 1109
- Activity limitation, pathophysiology of, in patients with interstitial lung disease, 1566
- Addison's disease, pulmonary tuberculosis and steroids, 582
- Adeno-associated virus, gene therapy for cystic fibrosis, 241; erratum, 1668
- Adenocarcinoma, cell type accuracy of bronchial biopsy specimens in primary lung cancer, 1199
- Adenoma, coexistent bronchioloalveolar cell, and bronchogenic carcinoma: assessment of radiologic detection and follow-up in 28 patients, 713
- Adenosine, is a selective pulmonary vasodilator in cardiac surgical patients, 41
- Adenosine deaminase, evolution of idiopathic pleural effusion: a prospective long-term follow-up study, 1506
- pleural, combined use of, with lymphocyte/neutrophil ratio: increased specificity for the diagnosis of tuberculous pleuritis, 414
- similar pleural fluid findings in pleuropulmonary tularemia and tuberculous pleuritis, 572
- transudate versus exudate: Genug! 1419
- Adenosine monophosphate, cyclic, effects of inhaled fluticasone propionate and oral prednisolone on lymphocyte  $\beta_2$ -adrenoceptor function in asthmatic patients, 343
- relative efficacy and potency of  $\beta$ -adrenoceptor agonists for generating, in human lymphocytes, 194
- Adenosquamous carcinoma, lung, clinicopathologic study of resected cases of, 989
- Adenovirus, gene therapy for cystic fibrosis, 241; erratum, 1668
- Adenovirus pneumonia, adult, spectrum of, 1656
- Adhesion molecules: See Cell adhesion molecules
- Adolescents, sleep, breathing, and cephalometrics in older children and young adults: part I—normative values, 664; part II—response to nasal occlusion, 673
- Adrenal suppression, effects of inhaled fluticasone propionate and oral prednisolone on lymphocyte  $\beta_2$ -adrenoceptor function in asthmatic patients, 343
- Adrenergic agonists,  $\beta$ -, bronchodilating effects of combined therapy with clinical dosages of ipratropium bromide and salbutamol for stable COPD, 293, 294
- evaluating the bronchodilator response in elderly asthmatics, 589
- goals of asthma management: a step-care approach, 1056
- guidelines for the use of nebulizers in the home and at domiciliary sites: report of a consensus conference, 814
- inhaled, week-long course of, or anticholinergic agent may reduce the dyspnea during exercise in COPD, 1666
- long-acting, tachyphylaxis, and corticosteroids, 862
- partial vs full agonism: a clinical study of inhaled albuterol and fenoterol, 957
- prevalence of gastroesophageal reflux symptoms in asthma, 316
- relative efficacy and potency of, for generating cAMP in human lymphocytes, 194
- survey of asthma practice among emergency physicians, 708
- who benefits from inhaled corticosteroids? 1666
- Adrenergic beta-receptor blockers (beta-blockers), evolving concepts regarding selection of patients for cardiac transplantation: assessing risks and benefits, 223
- once-daily dose of, diurnal variation of ischemic response to exercise in patients receiving: implications for exercise testing and prescription, 253
- Adrenergic receptors,  $\beta$ -, evaluating the bronchodilator response in elderly asthmatics, 589
- Adrenergic receptors,  $\beta_2$ -, lymphocyte function, effects of inhaled fluticasone propionate and oral prednisolone on, in asthmatic patients, 343
- Adrenergic stimulation, relation between depressed cardiac response to exercise and autonomic nervous activity in mildly symptomatic patients with idiopathic dilated cardiomyopathy, 925
- Adrenorrticotropic hormone, -secreting bronchial carcinoid tumor, use of somatostatin analog for localization and treatment of, 845
- Advance directives, are they becoming an endangered species? 299
- education during pulmonary rehabilitation, 373
- Aerosols: See also Nebulizers
- albuterol delivery, determinants of, to mechanically ventilated infants, 1607
- inhalation of single vs multiple metered-dose bronchodilator actuations from reservoir devices: an *in vitro* study, 969
- propellants, cumulative dose-response study of non-CFC propellant HFA 134a salbutamol sulfate metered-dose inhaler in patients with asthma, 702
- Age factors, etiology of pleural effusions in an area with high incidence of tuberculosis, 158
- Aging, CPR or DNR: lessons from the Buddha, 1415
- evaluating the bronchodilator response in asthmatics, 589
- isoniazid safety, 1412
- mitral valve reconstruction in elderly, ischemic patients, 35
- pharmacodynamics and pharmacokinetics of milrinone administration to increase oxygen delivery in critically ill patients, 1291
- pulmonary tuberculosis and steroids, 582
- severe community-acquired pneumonia in an elderly patient, 1645
- thrombolysis and, 294

- Wegener's granulomatosis in the elderly, 430
- woodsmoke exposure and risk for obstructive airways disease among women, 115
- AIDS: See Acquired immunodeficiency syndrome
- Airflow: See Airway
- Air hunger, pathophysiology of hyperventilation disorders, 516
- Air pollution, asthma and athletes: exercise-induced bronchoconstriction in figure skaters, 298
- woodsmoke exposure and risk for obstructive airways disease among women, 115
- Air travel, preflight evaluation: patients and methods, 1129
- Airway, inhaled corticosteroids do not prevent the development of tolerance to the bronchoprotective effect of salmeterol, 953
- matter of choice? 583
- plasma thrombospondin levels in sheep with allergic asthma, 1614
- reactive, dysfunction syndrome, 1618
- small, contribution of emphysema and, in COPD, 353
- upper, resistance syndrome, nocturnal blood pressure monitoring, and borderline hypertension, 901
- upper, snoring, 201
- virtual bronchoscopy: relationships of virtual reality endobronchial simulations to actual bronchoscopic findings, 549
- Airway obstruction, cross-shift changes in blood inflammatory markers occur in the absence of, in workers exposed to grain dust, 1078
- evidence of, in children with idiopathic scoliosis, 1532
- hyperreactivity, nonspecific, exaggerated responses to chlorine inhalation among persons with, 331
- impossible airway: massive tumor in neck, 1649
- nasal lavage cellularity, grain dust, and, 1086
- quantitative CT predicts the severity of physiologic dysfunction in patients with lymphangioleiomyomatosis, 131
- silicone stents in the management of benign tracheobronchial stenoses: tolerance and early results in 63 patients, 626
- thin-section CT detection of emphysema associated with bronchiectasis and correlation with pulmonary function tests, 360
- woodsmoke exposure and risk for disease among women, 115
- upper, in a woman with AIDS-related laryngeal Kaposi's sarcoma, 836
- upper, myasthenia gravis and, 400
- Airway occlusion, sleep apnea impairs the arousal response to, 1490
- Airway resistance, evaluation of a new thin-walled endotracheal tube for use in children, 1335
- ventilatory response to continuous incremental changes in, in patients with mild asthma, 1525
- Airway responsiveness, evaluating the bronchodilator response in elderly asthmatics, 589
- Albuterol, determinants of aerosolized delivery to mechanically ventilated infants, 1607
- evaluating the bronchodilator response in elderly asthmatics, 589
- evaluation of heliox in children hospitalized with acute, severe asthma: a randomized crossover trial, 1256
- inhalation of single versus multiple metered-dose bronchodilator actuations from reservoir devices: an *in vitro* study, 969
- inhaled, partial vs full  $\beta$ -receptor agonism: a clinical study of fenoterol and, 957
- long-acting  $\beta$ -agonists, tachyphylaxis, and corticosteroids, 862
- Alertness: See Wakefulness
- Allergies: See Hypersensitivity
- Allografts: See Graft rejection; Lung transplantation
- Altitude, effect of, on hand-held peak flowmeters, 475
- hypoxemia, preflight evaluation: patients and methods, 1129
- Alveolar-arterial oxygen gradient, not all pulmonary embolism tests survive utilization, 294
- arterial blood gas analysis in the assessment of suspected acute pulmonary embolism, 78
- opinions regarding the diagnosis and management of venous thromboembolic disease, 233
